Q: React Native, can't find file in Android I have a component that displays images stored in an asset folder in a list. The list works but the images don't. I'm not sure what I'm doing wrong, the paths look right in my debugger (I'm using the react-native-fs package). When a certain button is pressed, I want an image to be displayed. const List = ({ images }) => ({images.name} {images.username}
